INTRODUCTION

Born on 27 October 2021, DOGE FLOKI 2.0 (DOFI20) is the fastest-growing cryptocurrency like other popular coins. DOGE FLOKI 2.0 (DOFI20) is built in Binance Smart Chain and fully decentralized with 5 seconds block speeds and low gas fees compare to bnb. DOGE FLOKI 2.0 (DOFI20) has been derived from Doge Floki Coin to follow in his footsteps.

DOGE FLOKI 2.0 (DOFI20) was impressed with dogecoin but DOFI20 has broad benefits compared to dogecoin, the community can earn DOFI20 by depositing and saving DOFI20 tokens on its wallet. How is the reward obtained? The reward will be obtained in each transaction of the community with a corresponding percentage to be distributed to all holders. Impressively, there is a burning mechanism coded in DOFI20 to reduce the supply continuously.

ABSTRACT

DOGE FLOKI 2.0 (DOFI20)

Doge Floki Coin is a new cryptocurrency born to emulate dogecoin with the help of Elon Musk. DOGE FLOKI 2.0 (DOFI20) has an ambition to become a top cryptocurrency, top usage by the community and top earning generator. This is the unique reward system, staking platform, decentralized exchanges, a DOFI20 credit card for crypto payment in marketplace and DOFI20 NFTS marketplace.

DOGE FLOKI 2.0 (DOFI20) Staking platform

DOFI20 will build a staking platform, where the user can get a reward for staking the DOFI20. The user can stake their asset in the pool, which helps in offering liquidity in the cryptocurrency market.

DOGE FLOKI 2.0 (DOFI20) Decentralized Exchanges

A decentralized exchange that is similar to Bnb Pancakeswap. This essentially means that there are no order books, bid/ask system or limit/market orders. Instead, users trading on the platform automatically draw liquidity from one or more liquidity pools, which then rebalance after the trade is complete.

DOGE FLOKI 2.0 (DOFI20) Card and Marketplace

An online Marketplace and DOFI20 card to use for cryptocurrency payment in the platform.

DOGE FLOKI 2.0 (DOFI20) NFTS Marketplace

We will build a DOFI20 NFT marketplace to connect buyers and sellers by providing extra tools to you helping to create your own NFTs in a matter of minutes.

DOGE FLOKI COIN (DOFI20) BEP20

Binance Smart Chain (BSC) is a blockchain that was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20.

Binance Smart Chain is unique for several reasons:

- It's a sovereign blockchain, which will provide security and safety to all users and developers.
- Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance Dapps that require a fast and smooth user experience
- It's EVM-compatible and will support all of the existing Ethereum tools along with faster and cheaper transactions.
- on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.
